17th October 2023

Dear Parents and Carers,

F1 in Schools – After School Club

We are excited to be entering teams into this year's F1 in Schools. We already have our place reserved into the regional final in Telford in the summer 2024, all we need now is a team, or two!

Due to the rules of the competition this opportunity is only being opened up to Year 5 and 6. See the reverse of this letter to find out more.

We plan to run this as an after-school club, with some sessions taking place during school time too. The club will run 3.15 -4.15pm every Monday from November 6th to Monday 18th March, with further dates added in the summer term if we are successful enough to make it to the National Finals.

As this is a team competition, we need commitment from anyone that signs up, to attend every week until the Easter break and are therefore asking for payment in full of £59.50, once your place is confirmed. There will also be a trip to the regional finals, with the date to be confirmed closer to the time.

If your child would like to join our team, please complete the form below and return by the 23rd October, so that we can then confirm your place before the end of term.

Miss S Jones

Class Teacher & D&T Lead

F1 in School – After School Club

Name _____ Year Group _____ would like to be part of the F1 in Schools team, and commits to attend every Monday 3.15 – 4.15pm, starting Monday 6th November.

What is F1 in Schools?

- F1 in Schools Ltd is a not-for-profit company established with committed partners to provide an exciting yet challenging educational experience through the magnetic appeal of Formula 1.
- F1 in Schools is the only global multi-disciplinary challenge in which teams of students aged 9 to 19 deploy CAD/CAM software to collaborate, design, analyse, manufacture, test, and then race miniature compressed air powered cars made from F1 model block.
- It is a unique global platform for the promotion of Formula 1 and partners to a youth market.
- Teams must raise sponsorship and manage budgets to fund research, travel and accommodation.
- The challenge inspires students to use IT to learn about physics, aerodynamics, design, manufacture, branding, graphics, sponsorship, marketing, leadership/teamwork, media skills and financial strategy, and apply them in a practical, imaginative, competitive and exciting way.
- The founding constitution of F1 in Schools stipulates that it is, and shall remain, a not-for-profit organisation. Funds raised through sponsorship are invested in administering, developing and expanding the challenge. All income is deployed in accordance with guidelines laid down by Formula 1.

WHY GO FOR IT?

Because competing is an amazing experience.

- Compete with other teams in a controlled environment
- Develop invaluable interpersonal skills
- Put your teamwork abilities to the test
- See your ideas and designs come to life
- Demonstrate good sportsmanship
- Have loads of fun while learning life skills
